Prov. Hail Suppression Board Organized Here This Week

A meeting was held in Didsbury Tuesday for the purpose of setting up a Provincial Hail Suppression Board. At present there are five municipal districts in the province, each with its own board, working independently of each other. The meeting was called to set up one over-all board, the group to represent the entire hail suppression area, both of locals already formed and any that may be formed in the future.

The municipal districts which have already formed their own local organizations include: Mountain View No. 49, with Tom Morris, Roy Oale and J. C. McCulloch representing the local board; Red Deer No. 55, W. J. Edgar, Neil McPhee; Kneehill No. 48, James Bishop, Ed Kober; Rocky View No. 44, Wm. Thomas, Wm. Murdoch; Poothills No. 31, Gordon Beagle, A. Westlund.

Mr. Wm. Connor of Didsbury, representing the weather modification company, was present. Mr. H. Lynch-Staunton, mayor of Didsbury, was on hand to welcome the group. In his remarks he referred to the fact that this district held the dubious distinction of being the most hail area in the world and that the apparent success of hail suppression efforts carried out during 1956 had greatly brightened the outlook of farmers in this vicinity.

The name suggested for the new representative organization is Union of Hail Suppressions Associations Limited, with a working committee of one member to be appointed from each local organization.

Directors of the new association are: James Bishop, Three Hills, president; Tom Morris, Didsbury, vice-president; Ed Kober, Trochu, secretary.

We would sure appreciate seeing something beneficial done at the bottom of Elkton Hill. There must be some way of fixing it up.

Chitter-Chatter

By Our High School Scribbler

At the high school party last Friday night the local talent was brought to the fore with a variety concert. The entertainment ranged from vocal and piano solos by various students to humorous selections by David Turner and humorous monologues by Myrna Reimer.

The highlight of the evening was a fashion show of the latest styles, direct from Paris. Mademoiselle Norman Reimer looked like a striped bathtub suit but did not mind. Let us show her appreciation by being present and bring friends with us. Lunch will be served as usual.

The association was indeed fortunate in being able to engage one of Alberta's top horticulturists to replace Mr. Alex Munro, who is unable to keep his previous engagement here. Let us show our appreciation by being present and bring friends with us. Lunch will be served as usual.

Teen-age fashions were modelled by Wayne Stauffer and Verni Befus, while Ted Ventrone, Ed Penner and Merv McMartin displayed the wardrobe of the smart young French housewife.

After a few games were played, lunch was served and then dancing with music by Fern Eckstrand and Bill Morton was the main feature until midnight.

Mrs. Ed Ford, regent of Mons Chapter, received the members and presented Mrs. Bishop with a corsage of violets.

Mrs. Bishop presented silver coffee spoons with crest to Mrs. A. R. Kendrick, the only charter member of Mons Chapter, and Mrs. N. W. Hunsperger, who has been with Mons for 27 years. Mrs. Bishop said it was members like these who inspired the 35,000 members from all parts of Canada, to accomplish many worthwhile projects.

In the early days of the chapter, members met in the homes of Mrs. Kendrick and Mrs. Hunsperger, and other activities of the chapter took place.

Following the meeting, tea was served, with Mrs. Kendrick and Mrs. Hunsperger presiding. The tea table was centred with daffodils flanked by matching tapers in silver holders.

RELAX, MY FRIEND !!! Old Ben had farmed his 360 acres for fifty years and now had finally sold out. The auctioneer took his commission and handed Bill and his wife the roll of bills.

"Well, now," he said, "I guess you're all ready to start that party you've been talking about so long. Where are you going first?"

Ben stretched comfortably and knocked the ashes from his pipe. "Farmin' has been hard work," he said, "and I figure on a real good rest right off. We aim to find one of them tourist places in the mountains. The first week I'm just gonna set on the big front porch in a rockin' chair. And the second week I'm gonna go to rock."

Just For The Record . . .

The provincial government have straightened out the five-year driver's licence plan a bit, they say they're going to straighten out the controversial east road soon — guess we'll have to find something new to beef about. Let's see . . . what about an all expense paid trip to Honolulu for everyone in the areas effected, the area to terminate when all these fine promises of roads, dividends, grants, etc., become a reality. Did we hear someone say they couldn't stay away that long?

Just For The Record . . .

The golf course is beckoning. On recent fine days we've noticed a few adherents of the summer madness on the course, limbering up for what could be the best season yet for local divot-diggers. Plans for finishing the club house are under way and the course itself will also come in for some face-lifting. 'Twas good last year, it'll be better this year.

Just For The Record . . .

The local hockey season is over, the ice in the arena has trickled away, the uniforms have been put in mothballs for another season, but some of the lads who carried Rambler colors this year still show evidence of that fact that it was not all pie and ice cream. Physically and financially some of the play-for-fun boys are still paying off for injuries received in games during the season. Next time around we suggest the executive look into the possibilities of an insurance plan which covers all players while they are travelling or playing with the team. Other small centres have had success with the idea and they tell us the cost is not too exorbitant. It's worth a thought.

Just For The Record . . .

This week we'll give you our definition of that nasty word, suspicion: A mental picture seen through an imaginary keyhole.

THEY'LL PROBABLY DO IT THE HARD WAY

The provincial government has made several modifications to its plan to issue five-year driving licences in Alberta.

The modifications as announced by Mr. Gordon Taylor, minister of highways, in the legislature, take cognizance of several very valid objections.

The first objection was that no allowance had been made for refunds to motorists who were moving away from the province, who gave up driving because of old age or health reasons, or who died at any time between the issuance of the five-year licence and a year before it was due to expire.

Mr. Taylor's announcement that these refunds will now be allowed eliminates most of these objections though it is still our contention that it is highly questionable whether persons over 65 years of age should be given anything more than a one-year licence after an annual driving test.

As for the others, it can only be hoped that the machinery set up for the refunds will be so simple that people moving out of the province or who voluntarily yield their driving rights will only have to turn in their licences at the nearest motor vehicles licensing bureau and receive their refunds on the spot. If the government, with its usual love of red tape and its desire to make everything as difficult as possible for citizens, is to insist on formal applications being made to Edmonton in writing which may, or may not, be paid in less than three or six months, much of the object of the change in regulations will be lost. If that is the way it is to be done, many people moving out of the province or who cease driving will not bother to claim the refund and the government will still be guilty of needless over-taxing the people of the province.

The second objection to the new plan was based on the fact that motorists driving outside the province this year, whose birthdays did not occur before April 30 could be penalized for carrying an obviously expired licence. This Mr. Taylor says, will be eliminated by issuing letters to any drivers outside the province saying that their licences

(Intended For Last Week)

Mike Haener, travelling with a German friend, with whom he worked at Yellowknife, sailed from New York on February 27. He plans to tour Europe, visiting relatives in Germany and Switzerland. Mr. H. Haener has received word that the lads arrived safely in France after a rough crossing. They were seasick a couple of days on the voyage but enjoyed a clear view of the English coast as they passed. Denyse Haener became engaged over the Christmas holidays to a chap she met in Calgary, whose home is in Switzerland. Denyse has been travelling in Europe for some time. She has visited in England, Italy, Germany and Switzerland. She plans to return to this country with Mike about the tenth of May.

Mr. and Mrs. Jack Rattray returned Saturday from a week's vacation in Calgary.

Weekend visitors at the D. Young home last weekend were Mr. and Mrs. G. Beecher and family and Mrs. J. Q. Lane.

Mr. L. Bergeson and Mr. V. Brown returned Friday from a trip to the uranium mine.

Mrs. W. Jackson, travelled by plane to the west coast March 14, returning the following day.

M.S.I. slips for attaching to income tax forms are now in the credit union office.

have been extended.

Mr. Taylor has not yet explained just how this is to be done. Will a motorist — and the majority sometime or other during the summer manage to get into British Columbia, Saskatchewan or Montana at least — have to make a written application to Edmonton or will a form letter be issued him?

Which ever it is, the provision of letters — which can easily be mislaid or lost — is the poorest of poor ideas. The simplest and best way would be for motorists to go to the nearest licence bureau where their licences can be stamped with a new expiry date or a special stamp affixed to their licences.

If there is a hard way of doing anything, it is almost certain that the government will find it.

I DON'T GO TO CHURCH

BECAUSE . . .
The church buildings in our town
will seat about one-third of the
town population. Yet our buildings
are seldom ever crowded. Every
person who does not attend has a
reason for not doing so. We will
mention only a few of these reasons,
because space will not permit us to
mention them all.

There is a confusion in the minds
of many concerning the meaning of
the term church. People in the act
of corporate worship constitute a
church. This to be carried out re-
quires a place of worship and a
form, but the place and form are
not the church, any more than the
clothes are the body. A Bible defini-
tion states: "The church is the
Body of Christ." "Those who live
in the spirit of Christ." Using
this meaning there are many who
do not prefer to be the Body of
Christ, nor to live in the spirit of
Christ.

"I don't go to church because
of the minister." More than half the
people who do not go, give this as
their reason. There are churches
without ministers. So the minister
cannot be a real hindrance to
those who really want to go. Then,
too, half of the people who give
this reason have never spoken to a
minister a dozen times in their
lives. There are always two sides
to a story and a minister must ad-
vocate his side. Where the two
of the blame. The truth is here: we
have not met the need as Jesus did,
because we have never arrived at
the place where it can be said of us
"The common people heard him
gladly." However, Jesus can still
be heard in the church, because as
He Himself said, "Where the two
and the three are gathered in my
name there am I in the midst of
them." It is only those who so hear
Him that know either how far we
have strayed or how closely we fol-
low Him.

"I don't go to church because the
best people don't go." Everyone
can use this word best in his own
way. Nevertheless the way one
uses it reflects one's own standard
of values and never some other per-
son's. Our schools, hospitals, social
agencies, Red Cross and peace or-
ganizations all came to birth under
the leadership of people who have
taken a regular part in the keep-
ing of the public worship of God.

These may not be the best peo-
ple, but they are busy doing the
best things. It is also questionable
if these institutions could be kept
at their present high level of effi-
ciency, if it were not for the moral
and spiritual influence of those
who make these and other interests
a matter of public prayer.

"I don't go to church because of
its careless advertising and neglec-
ted property." The advertising of
the institutions and programs that
appeal to this group of critics are
in the main the work of church
goers. So here one is left to won-
der why their work is so satisfac-
tory to non-church goers in every
other field but that of the church.
There should be another beautiful
in plain sight in every place of wor-
ship. "Blessed are they that beau-
tify the Lord's House."

"I don't go to church because I
can be good without going," or
"What's the use?" "What do I get
out of it?" These and many other
even reason, add up to this: namely,
there is no present feeling
of a need for God; no sense of
gratitude for life, family, friends,
and in short for all we have that
we did not create; and certainly
no desire for the fellowship that is
planned to help man fulfill the
purpose for which he was created.
What is hard to understand is this:
why do people so minded feel it im-
portant to bring the remains of a
loved one into such a fellowship,
since such a loved one has never
been encouraged to share the fel-
lowship, at a time when such a fel-
lowship of faith could have brought
into that life Eternal Joy and
Everlasting Peace?

It is rather hard to keep the
first commandment when the others
have been broken. When the
time comes that we are willing to
keep this first commandment in
spirit and in truth, our places of
worship will be well filled. In fact,
we will need a lot more space to
worship in. We will need no ex-
cuses then. We will all want to be
there, where prayers are want to
be made.

"I was glad when they said unto
me, let us go into the House of the
Lord. Our feet shall stand within
thy gates, O Jerusalem."

ANYONE FOR PIE ???

A drunk staggered into an auto-
mat, put some nickels into a slot
and watched in astonishment as
out came a piece of cherry pie. He
put in more nickels and out came
another slice. He continued feed-
ing more nickels until he had al-
most a dozen pieces of pie. One of
the attendants finally asked him,
"Don't you think you had better
stop now?"

"What?" cried the drunk. "Quit
now, when I'm still winning?"

ERGOOT IN FEED AND SEED:
Ergot is one of the most common
diseases of rye. It is also fairly
common in barley and there is oc-
casionally a trace in wheat but
rarely occurs in oats. Crested
wheat grass, brome, quack and
timothy are also susceptible. The
loss sustained is reduced yield to-
gether with lower prices being paid
for ergot rejected grain and also by
the poisonous effect on livestock.
As little as 0.15% or 1. ergot ker-
nel in 700 kernels of grain can
cause abortion in livestock. It can
also cause irritation and pain in
the extremities of the body and
later the mummification and loss
of tail, ears and perhaps feet. Last
fall a local farmer turned several
cattle into a large hog lot that had
been seeded in the spring with rye.
Little thought was given to the fact
that the rye that had matured was
infested with ergot. The result was
that two cows lost both hind hooves
and part of the feet and had to be
destroyed.

Many of us pay too little atten-
tion to the harm that ergot can do
and should take every precaution to
prevent it. Space does not permit
me to elaborate on the cause and
cure of ergot but I do have some
pamphlets that will tell you about
it. If ergot is a problem with you
drop in and pick up one of these
pamphlets and read all about it.

FOR HOME**
Amherstburg, Ont. — The Cana-
da geese are coming home after a
winter down south and for the past
10 days their honking has shattered
the morning stillness as they dip
low over farmlands in southwestern
Ontario looking for food.
The graceful birds usually spend
two weeks in the area before con-
tinuing north.

And they're bringing problems
for a local sanctuary.
Henry Rebidoux started his sanc-
tuary as a hobby 20 years ago but
it's getting a little out of hand now.
About 4,000 of the honkers are
turning out for free meals.
"Already I've gone through about

with a bushels of corn and two peck
of wing-clipped geese 20 years ago
has grown to wagon loads of corn
and now my whole crop."

THERE'S NO hangover head.

Most women prefer gas because it gives you perfect control

New gas burner-with-a-brain gives the same automatic per-

range could be more automatic. And no other fuel offers

Notes From D.A.

By Howard J. Pulcher

Which fertilizer should be used on grass and legume crops is a question often asked. Generally speaking nitrogen is required with the grass and phosphorus for the legume. Fertilization of forage crops is a very good plan, in many cases more returns are realized for the dollars spent than when fertilizing grain crops. Many fence stands which are not yielding well can be bettered by fertilizer, the growth may be poor just because of the low fertility of the soil. Forage crops and fibre and fertility to the soil when broken up, but the growing crop requires plant food the same as any other crop.

It is usually best on grasses to apply a high nitrogen fertilizer with some phosphorus, 27-14-0 at 100 pounds gives very satisfactory results. In cases where only grass is present and the stand is dense but lacks growth, 33.5-0-0 will be satisfactory, applied at approximately 70 pounds per acre.

A forage mixture of legume and grass should have 10-20-0 applied at approximately 100 pounds to the acre. This fertilizer contains 14% sulphur as well as the nitrogen and phosphorus. Sulphur is important in the grey wooded soil areas. Where the crop is almost all legume 10-20-0 at 100 pounds or 11-48-0 at 75 pounds will give good results, the latter fertilizer is recommended for the black soil not grey wooded.

In areas where sulphur is a problem, applications of 21-0-0 at 100-150 pounds gives good results on mixed grass and legume stands.

Another fertilizer that should not be overlooked is barnyard manure; this can be applied on pasture or hay land and will substantially increase the yield.

A heavy healthy forage crop, when it is fed sufficient plant food, will produce good fodder and will leave much more valuable organic matter in the soil when broken up than a light stand.

WALTHER LEAGUE TO PRESENT THREE-ACT PLAY

The last meeting of the Walther League began with a devotion led by Erhard Reinhardt, who also led the topic entitled "God's Guarantee."

During the business session the skating committee reported the party was held at the local arena on a Sunday evening, after which all gathered in the church basement for hot dogs and coffee.

The following Sunday afternoon and evening the annual curling bonspiel with Trochu was held, with the latter retaining the coveted trophy.

It was decided to place a Lenten display in a local store window. The executive are busy selecting a three-act play to be presented after Easter.

START WORKIN' NOW ! ! !

LIGHT YOUR WAY WITH BIBLE STUDY

Shortly after World War II ended Emperor Hirohito granted amnesty to nearly 1,000,000 Japanese. This move, he said, was designed to unite his country "in meeting a great change in history." The proclamation, the first of its kind in all Japanese history, pardoned 320,000 prisoners, reduced the sentence of 37,000 others and ordered restoration of civil rights to 400,000.

Remarkable as this change in the history of Japan was, it faded into utter insignificance when compared with the world-wide amnesty which God Himself declared more than 1,900 years ago. When Jesus Christ died on the Cross for the sins of all the world, God proclaimed a universal pardon. The sins of every man, woman and child who has ever lived or will live were stricken from God's record book. By His suffering and death in the place of sinners, Christ had paid their debt.

"God was in Christ," the Bible tells us, "reconciling the world unto Himself, not imputing their trespasses unto them; and hath committed unto us the word of reconciliation." Christ has purchased freedom for all mankind. And if the Son shall make you free, ye shall be free indeed! This freedom is ours through faith in Jesus. This freedom is again, in a very special manner, offered us in this present Lenten season. Very shortly we shall see the seal of God on this declaration — the open and empty tomb.

Hirohito may pardon his 320,000. Jesus Christ has won freedom from fear, freedom from eternal condemnation for every member of the human family. Read your Bible and let God tell you more of this freedom that is yours in Jesus Christ.

(From Our Own Correspondent)

The five young men who were doing evangelistic work during the weekend have returned with good reports of their work. Edward Oke, Bob Hale and Mervin Traub were in Condor and Evergreen churches, while David Archer and Arnold Dietz served the Big Valley church. These young men, who are entering the ministry in the future have had good experience in preaching in this way.

The faculty had a progressive supper on Saturday evening. Beginning at Mrs. Kager's apartment they went on to the home of President Taylor, then to Rev. Ray Shantz's, to Mrs. Suder's and Miss Roy's apartments and finally to the Hunsperger home, where they saw pictures of interesting scenes taken during the choir tour and scenes around the college during the past few weeks. It was an enjoyable evening for all of them. Mr. and Mrs. Waldin came up from Calgary for it and enjoyed being with the others on such an occasion.

Mrs. Suder and Mr. Carpenter were dinner guests in the Alvin Traub home Sunday.

Rev. and Mrs. Shantz were presented with a large bouquet of flowers on Sunday during the morning worship service. It was the occasion of their 21st wedding anniversary. Mrs. Shantz teaches the class in religious education in the college.

Mr. Waldin's speech class presented the annual play "William Tyndale" in the Alliance Tabernacle, Calgary, last Thursday evening. On Sunday night it was presented in the Parkdale United Missionary Church, Calgary, and after service in the First Nazarene Church as well. We'll say something about it in next week's issue.

Dr. Bankier was guest speaker at the Scout's meeting last Tuesday evening. He gave a splendid talk on first aid which was greatly appreciated by the boys.

Letter To The Editor

Calgary, Alta.

The Editor,

Didsbury Pioneer.
At the annual meeting of the Calgary District Cancer Society held at Calgary the 1st of March, 1957, a vote of thanks was made to the Press for its contribution to the public education activities of the society during the past year. Mention was made of the gratuitous time, liberal press coverage and editorials.

Your contribution puts you in the forefront of those agencies assisting the Society in its all-out effort to conquer cancer.

We are looking forward to another year, with the assurance of your continued good-will and co-operation without which we could not hope to reach the success we have attained.

Fred Kenny, Sec.-Treas.,

SOMEONE CHEATED ? ? ?

The scene was the interior of a saloon in the Far West, and round the table were gathered as tough a gang as could be found in the whole of Nevada. The game was fast and furious, the stakes were high.

Suddenly the dealer flung his cards on the table, and threateningly pulled out his six-gun. "Boys," he shouted, "the game ain't a straight one! Slippery Sam ain't playing the hand I dealt him."
